**The PIPE**

# The PIPE.

Document well-being checks.

---

The PIPE is a super-rugged recording device for well-being checks and inspections. Make it easy for your officers to document and confirm their well-being checks and patrol rounds.

Administrators and supervisors can confirm that required checks are being made. If an incident does occur, proper documentation provides protection against liability and litigation.

*The PIPE, our super-rugged data recorder for cell checks and suicide watches.*

## A super-rugged device built for corrections:

Used by over 1300  
correctional facilities

Estimated 3.6 billion checks  
made annually

5 year warranty

15-20 year typical  
battery life

Used for:

- Cell checks
- Suicide watches
- Safety inspections
- Documenting tasks and observations

**Simple to use.**  
**Quick to set up.**  
**Easy to train.**

How it Works:

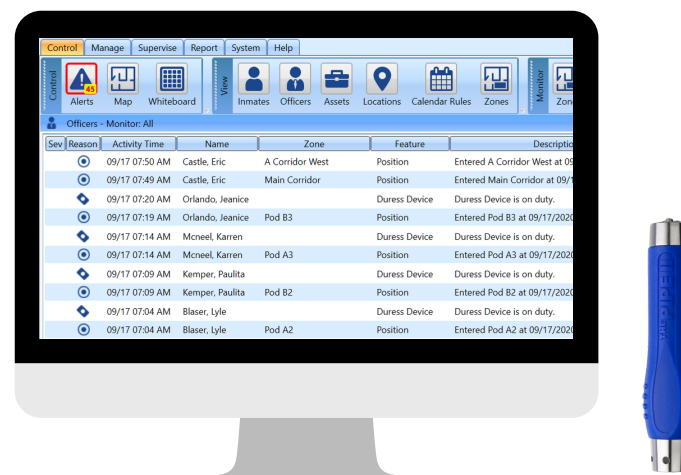

1. Start rounds by using officer identifier button.
2. Officer performs rounds by touching the tip of The PIPE to the location buttons. This will provide the exact date and time the location was checked.
3. (Optional) Officer can record observations while on rounds by using an Incident Wallet.
4. Insert The PIPE into IP Downloader to upload to desktop client. Repeat for next rounds.

## GUARD1 Real Time Software

Fully documented electronic records.

GUARD1 Real Time Software allows administrators and supervisors to confirm that required checks are being made on time.

Use our on-demand reporting system to access a full and accurate history of each check logged by your officers. Receive alerts and notifications when there are any late or missed checks.

*Increase check compliance and accuracy by using The PIPE.*

**Protecting lives  
and reputations**
