

GUARD1
by TimeKeeping Systems

GEMS System

The most widely used GEMS system:

GUARD1 PLUS

Trusted by over 100+ RSOs and GSOs in US Embassies around the world

Accurate.

With GUARD1 PLUS and THE PIPE, you have an electronic record that proves exactly when and where checks are physically done.

Simple.

Using THE PIPE makes it easy to record and verify that officers have checked the embassy, staff residences, and other critical locations.

Durable.

With its rugged, waterproof and shock-resistant design, THE PIPE can withstand the toughest environments all over the world.

Reliable.

Tamper-resistant and equipped with a typical battery life of 15-20 years, PIPE devices have made millions of checks for embassies.

The next generation GEMS system: **GUARD1 Real Time**

The GEMS that gives you real-time visibility into your embassy and residential patrol areas.

Accurate Logs.

With GUARD1 Real Time and our Mobile RFID devices, you can see made and missed logs by your security personal instantly.

Rugged & reliable.

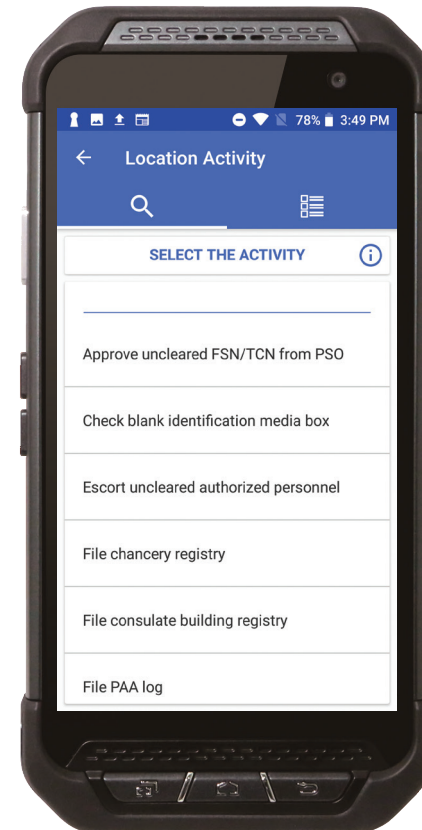

Housed in a shock-resistant case and a gorilla glass screen, our military grade mobile devices are built to last.

Powerful reporting.

GUARD1 Real Time lets you report on data in real-time and customize the reports to your embassies' unique needs to meet DS reporting standards.

Simple to use.

Our Mobile RFID devices have a simple interface that makes training new security personnel quick and easy.

Protecting lives and reputations.
