

LaserPrint Wristbands

GUARD1

GUARD1 LaserPrint Wristband Features

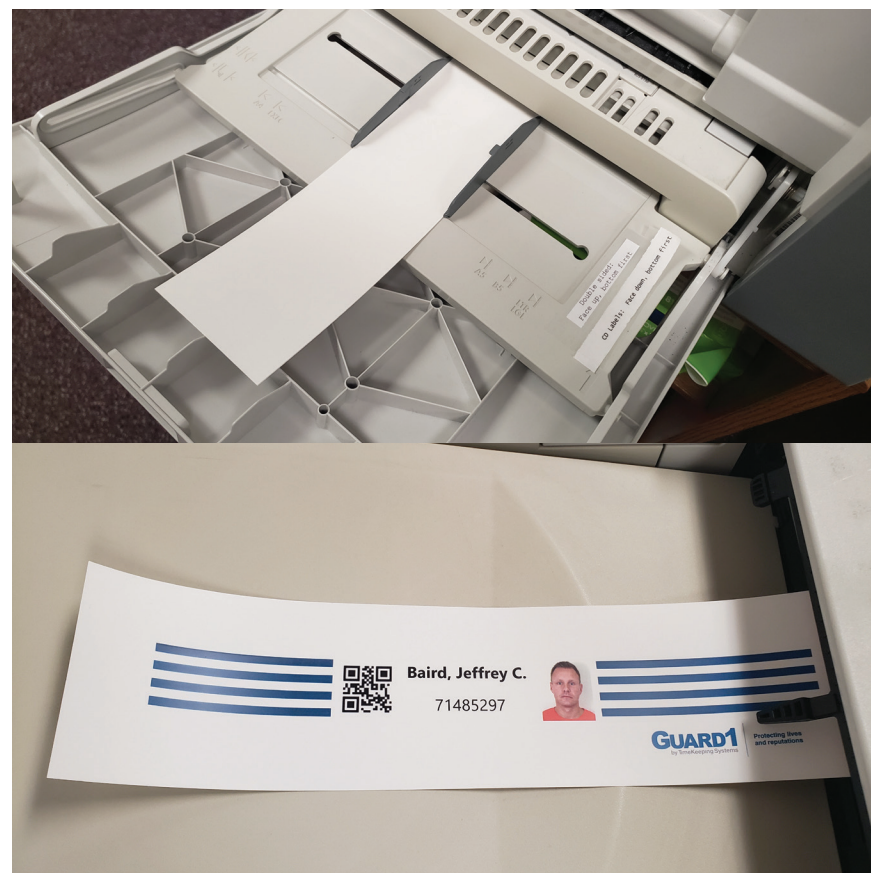

- Print on your laser printer
- Add wristbands to your workflow
- No messy laminating
- With or without RFID

Print almost anything on LaserPrint Wristbands

What can you print on LaserPrint Wristbands?

- Individual photos
- Names
- ID numbers
- Food or medication allergies
- Classification information
- Bar codes
- Logos or other images
- Patterns and colors for identification

Wristbands print in the envelope path of your laser printer

LaserPrint Wristbands are printable

Make customized wristbands, with exactly the information you want. GUARD1 LaserPrint Wristbands print just like envelopes in any laser printer. Unlike “pouch” style wristbands, LaserPrint Wristbands need no extra laminating equipment and cannot delaminate.

Mobile RFID scanning with SuperMAX device.

NFC tags for identifying individuals

Our NFC tags support HF RFID and the ISO15693 standard. They work with GUARD1 mobile devices and the GUARD1 ScanStation.

Integrated with GUARD1 Real Time

If you're a GUARD1 Real Time user, wristband printing is integrated with your onboarding or classification process. All GUARD1 Real Time software supports wristband printing with standard laser printers.

LaserPrint Wristbands are strong

Our printable polymer wristband material is strong, strong, strong. It will last for months unaffected by showers, heat, food, and other stresses of daily life.

Designed by GUARD1 Manufactured by GUARD1

We manufacture GUARD1 LaserPrint Wristbands at our headquarters facility just east of Cleveland, Ohio, with the quality you've come to expect from GUARD1.
