# GUARD1
by TimeKeeping Systems

**A Complete Corrections
Facility Management Solution**

Who We Are

GUARD1 is a proven, complete correctional facility management solution. With over 100,000+ customers served since we started in 1987, including over 1300+ correctional facilities, we know the challenges correctional facilities face and how to solve them. Our flagship offering, GUARD1 Real Time, helps correctional facilities stay secure, provides real-time visibility into their operations, shows what is happening when it's happening, and protects them from liability.

GUARD1
by TimeKeeping Systems

The GUARD1 Platform

THE PIPE   RFID Inmate Tracking   Duress Device   LaserPrint Wristbands   Real-Time Tracking   Receivers

Get up and
running quicker

Empower your staff
to get more done

Know what's
happening,
when it happens

Eliminate manual
JMS entries and
paper logs

Cut out the
clerical work

How can Guard1 help you?

Make audits
painless

Accuracy
made easy

Protect from
liability

Keep staff &
visitors safe

Accurate, reliable,
and durable
equipment

Know what's happening in your facility, when it happens. Instantly.

With G<small>UARD</small>1 Real Time, you're able to track data in real-time and use our mobile RFID devices to instantly see made and missed checks, movements, activities, handouts, and more.
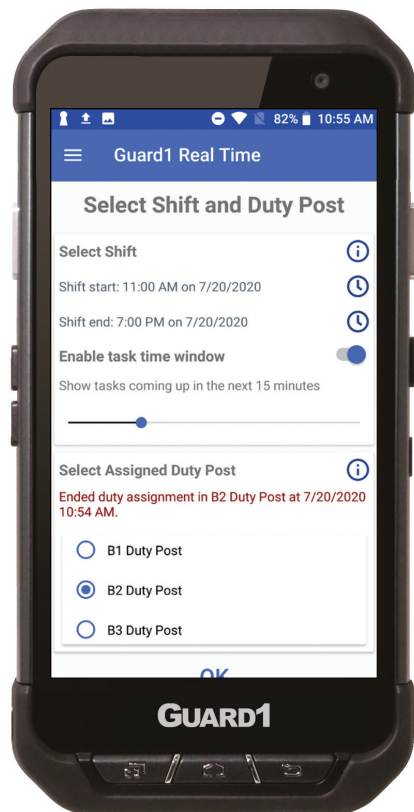

Our tracking tags give you a 360° view of facility, letting you track inmate movement in real-time and know exactly where they are.

The whiteboard view shows who is currently in every zone – with virtual headcounts and in/out counts

Get up and running quicker.

GUARD1 gets your officers up and running right away -- with a simple, easy-to-use interface designed with input from correctional officers and administrators. GUARD1 works the way that you do, with helpful features like Alerts and Duty Posts.
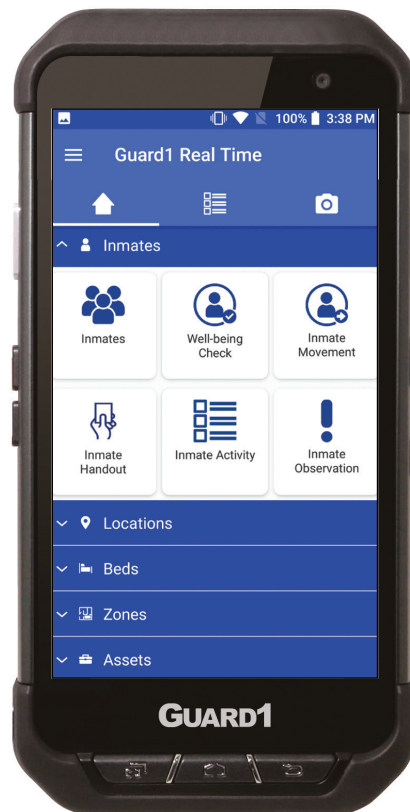

Empower your staff to get more done.

Correctional facilities are required to document more information with less staff than ever before. Using our mobile RFID devices, your staff can document more, in less time -- with perfect accuracy.

Accuracy made easy.

Using our Mobile RFID Devices, you can ensure the accuracy of your logs and other data. Have an extensive digital record of every event and activity in your facility. Get the reports you need for management and compliance.
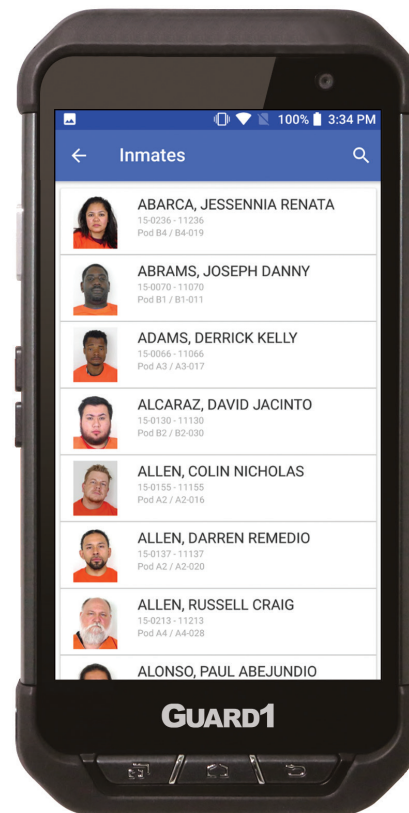

Look up inmates when on a round.
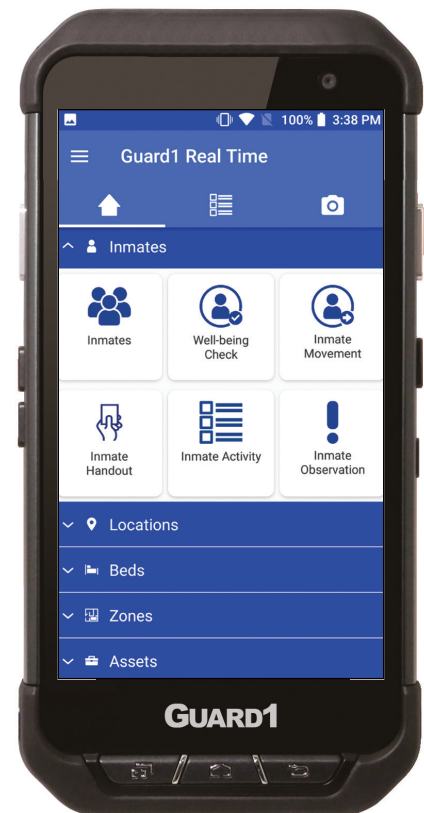

Log checks, inmate movement, & more.
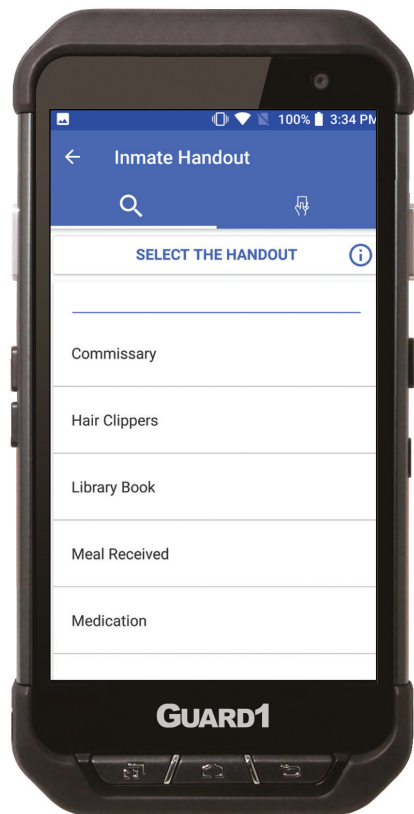

Quickly log handouts and activities.
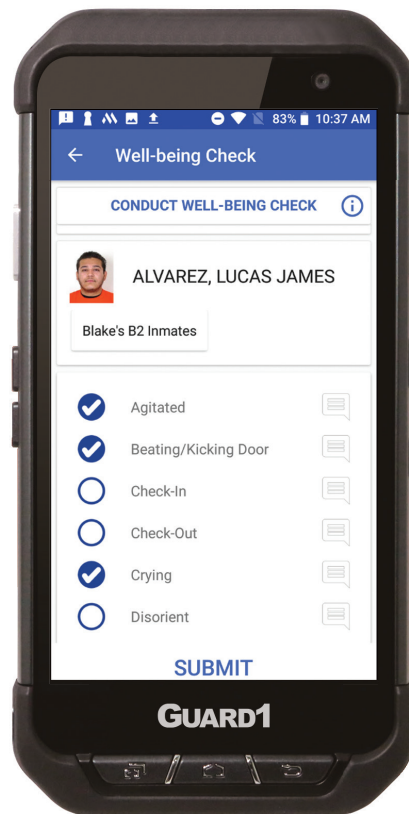

Easily document well-being checks and observations.
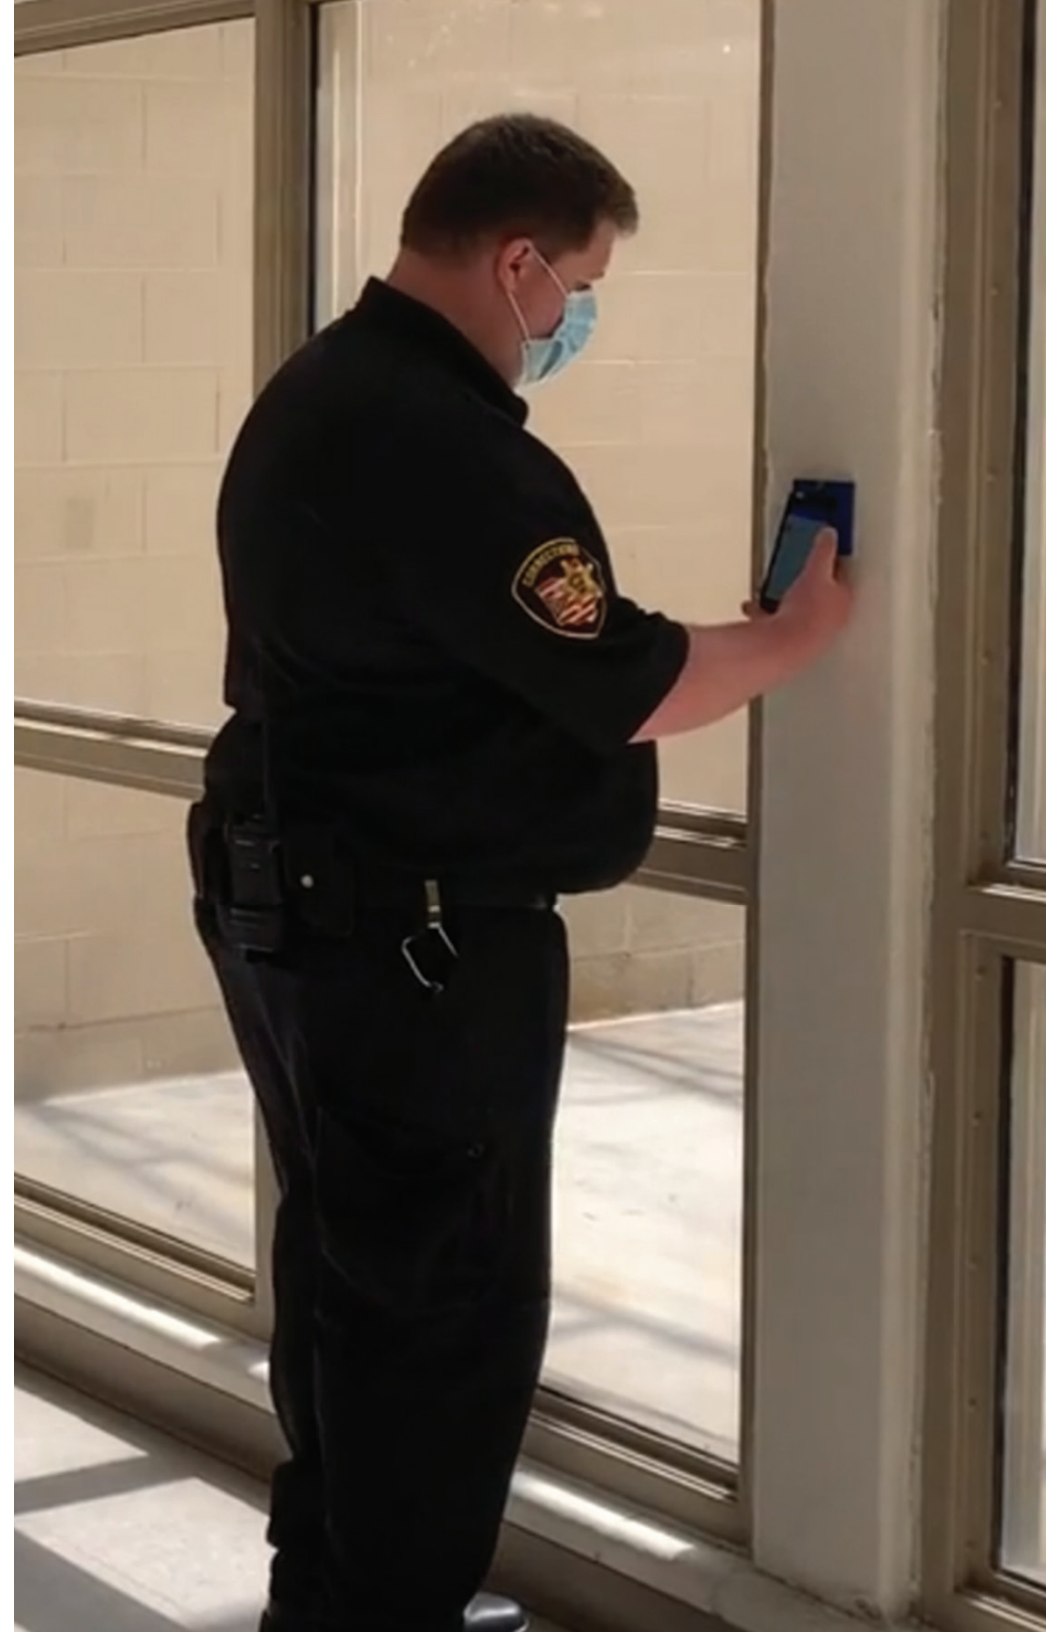

Inspections are already hard enough.

Make audits & inspections painless.

Don't dig through file cabinets and folders looking for specific paper logs. Find activity logs for a given time period in seconds and make inspections and audits painless.

Protect from liability.

You can't rely on cameras to make sure your officers have done their well-being checks and other mandated tasks. With Guard1, you know it was done. If anything was missed, you know it immediately with Guard1 real time alerts.

Prevent incidents before they occur.

GUARD1 integrates with your JMS/OMS. We use your classification information -- health conditions, dietary needs, security information, enemy lists -- to ensure that offenders receive the meals and attention they require, and to detect and warn you of security exceptions like keep-separates.

Keep staff and visitors safe.

With our Duress Device, you know immediately if staff or visitors press the panic button, including their exact location. Our personal GUARD1 alarms also provide alerts if there is a man-down, it registers no motion, it's removed from its holster, or if it's not detected by a receiver.
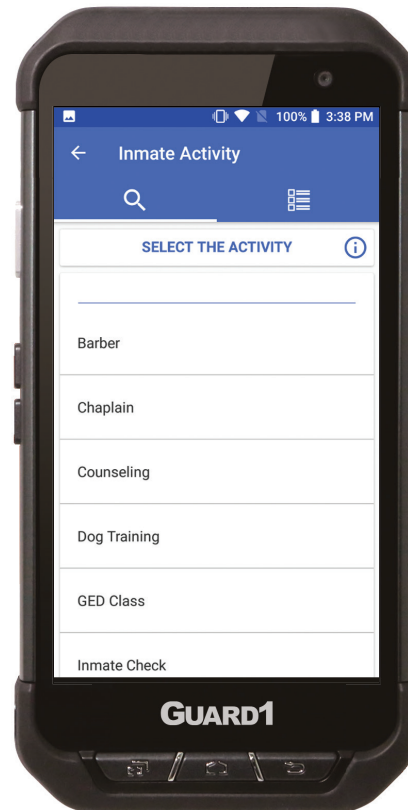

Eliminate manual JMS entries and paper logs.

Get rid of the endless paper log sheets, spreadsheets, and sign-in/out sheets. No more papers taped up on the wall or hanging on a clipboard. Instead, use the mobile devices to log checks, observations, handouts, and more with greater accuracy and efficiency.

Cut out the clerical work.

Your officers should be focused on their own safety and the protection of those in their custody and their care – not paperwork. Start using a system that fits in the palm of their hand and everything is a tap or click away.

Accurate, reliable, and durable equipment you can trust.

We have worked with correctional customers for over 20 years. We understand that you need equipment that is rugged, reliable, and easy to use. Products like THE PIPE - used by hundreds of correctional facilities - are designed and manufactured by us in the US and built in our own manufacturing facility with a careful focus on ruggedness and quality.

Mobile RFID Devices.

- Designed for the toughest environments.
- Rugged, military-grade device.
- Shock resistant case.
- Gorilla Glass screen.
- Built to last for multiple shifts on a single charge.
- Eliminate downtime with our high-capacity, hot-swappable battery and separate dock-charger.
- Limited or no Wi-fi? No problem. Our mobile devices store their data when offline and download to GUARD1 via ethernet when docked.

Our SuperMAX mobile RFID devices come with a sturdy hand strap, spare battery, and a charging dock.
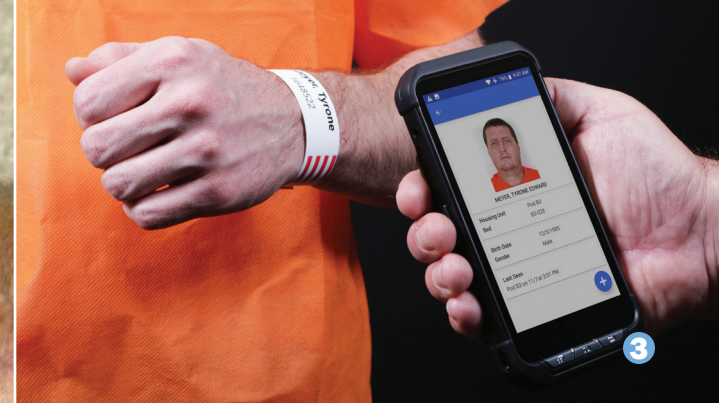

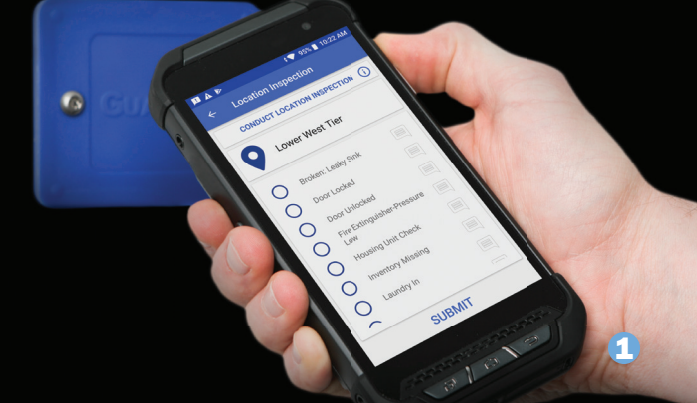

RFID Wall Tags ①
- Durable wall mount
- No wires or electricity needed
- Only need 2 screws to install
- Works with Android Supported Devices
- Lifetime Warranty

Real-Time Tracking Tags ②
- Rugged composite housing
- Epoxy sealed electronics
- Two year battery life
- No charging require
- Washable
- Re-useable

LaserPrint Wristbands ③
- Prints on any laser printer
- No messy laminating or special equipment
- Rugged
- Tamper evident
- Easy to read RFID tags

Duress Devices ④
- Transmits an active signal once per second
- Provides zone location of emergency signals
- 5+ alert conditions
- 18 month battery life with replaceable CR123A batteries

THE PIPE ⑤
- The gold standard for well-being checks
- Made for the toughest environments
- Tamper-resistant
- Waterproof
- 15-20 year typical battery life
- Zero downtime
- Downloads reads to GUARD1 in 10 seconds

PrisonProof Buttons ⑥
- For use as checkpoints with THE PIPE
- Super rugged
- No wiring needed
- One touch with THE PIPE documents officer presence
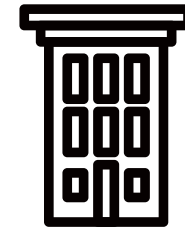

Don't just take our word for it.

A proven system, trusted by over 100,000+ customers since 1987.

What Our Customers Say

Jason Edgcomb
LaSalle County Jail Superintendent

The customization and accountability GUARD1 provides for cell checks is outstanding and very easy to use. I couldn't be happier with the sales people, the customer support and the products they offer...I look forward to continuing my relationship with GUARD1 and the cutting-edge technology they bring to the corrections field that makes my job easier and more efficient.
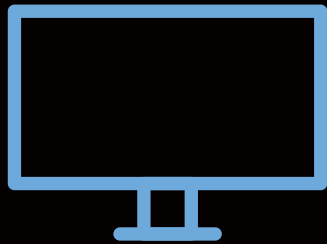

Luke Whitehead
Gregg County Jail Captain

What makes GUARD1 unique is their customer and technical support. The GUARD1 team is unbelievable when it comes to loyalty with their clients. Gregg county had some issues when we first launched, but GUARD1's technical team stayed on every problem until it was fixed... GUARD1 has changed the way Gregg County jail processes jail logs.
