Products and Solutions
for Proof of Presence

GUARD1

Solution Platforms

At TimeKeeping Systems, we've provided proof-of-presence solutions for over thirty years. Over 100,000 companies, organizations, and government entities have relied on our GUARD1 solutions for inspections, patrols, and well-being checks.

GUARD1 | Protecting lives and reputations

GUARD1 Real Time

- Advanced real-time technology
- Alerts and notifications
- Document staff activities
- Real time tracking of people and objects
- Personal alarms for staff safety
- Business Intelligence

Whether you are responsible for the custody and care of individuals, patients or offenders, or need real time accuracy for security rounds or safety inspections, GUARD1 Real Time is the answer.

GUARD1 Plus

For guard tour, well being checks, and all types of inspections, GUARD1 Plus and The PIPE are the reliable and proven solution used by over 100,000 companies and organizations worldwide.

Record checks and observations with The PIPE and Observation Wallet

EasyTour

For smaller needs, EasyTour and The PIPE. EasyTour is recommended for guard tour applications with infrequent tours and up to fifty checkpoints. EasyTour is not recommended for healthcare or corrections.

Left to right: an officer logging in, The PIPE and PrisonProof Button, the IP Downloader

The PIPE

The industry standard for over twenty years, The PIPE is our super-rugged data recorder for patrols, inspections, and well-being checks. It is manufactured at our headquarters outside Cleveland, Ohio. With its industry-best five year warranty and typical battery life of ten years or more, The PIPE is an investment that will reward you for decades.

One quarter of correctional facilities in the U.S. use The PIPE to document inmate well-being checks.

PIPE-II-TKS	The PIPE Touch Button Reader
PIPE-HOLSTER	Durable Holster with Belt Loop
HOLSTER-CLIP	Durable Holster with Belt Clip
DL-USB	USB Downloader
DL-IP	IP Downloader
DL-IP-POE	IP Downloader, Power over Ethernet version

The PIPE, for over 20 years the gold standard for checks and inspections

SuperMAX

Empower your staff with SuperMAX. Improve accuracy and document staff activities. Maintain and manage tasks for your people. And much more – all in real time.

SuperMAX is a rugged and powerful mobile device, integrated with GUARD1 Real Time to improve staff performance and accountability.

Inmate Tracking with SuperMAX and RFID wristbands

ScanStation enables self-scanning your facility

ScanStation

Patients, offenders, or others in your care and custody use the ScanStation to log presence and activities with the ScanStation fixed reader.

G1-SUPERMAX	GUARD1 SuperMAX Mobile Device
G1-SUPERMAX-KIT	GUARD1 SuperMAX Mobile Device, Ethernet Dock, Holster and spare battery
SCANSTATION-01	ScanStation RFID Scanner, POE
SCANSTATION-02	ScanStation RFID Scanner, POE

Active Beacon Tracking

Track people within your facility in real time with GUARD1 active beacon tracking and our wristbands, ID badges or asset tags. GUARD1 provides the zone location of people and things, and give you alerts for out-of-bounds and keep-separates.

GUARD1 tracking works with receiver infrastructure installed at your facility. Tags send a signal once per second to the receivers and the GUARD1 Real Time engine determines their location.

Staff Duress Devices

Protect your staff in your custody areas or other dangerous environments, with the GUARD1 Duress Device. Our personal alarm devices have a big red panic button for your staff to summon help if needed. The GUARD1 Real Time software signals an emergency alert and provides the zone location of the incident.

A. GUARD1 Active Beacon tag and wristband
B. GUARD1 Duress Device and Belt Holster
